Index vs population share, by state

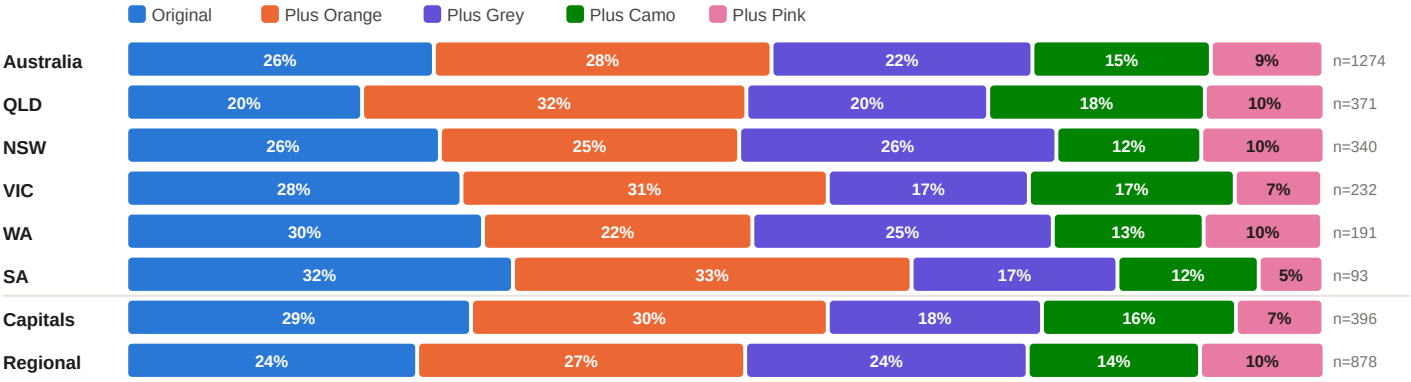

Share of mats ÷ share of population × 100. NT 177 and ACT 36 are small bases (2870 mats total).

Mats per 100k people: capital city vs regional

Every state's regions out-buy its capital by 3.6 to 7.4 times. Regional WA and SA lead at about 33 per 100k.

Variant and colour mix (share of mats sold, 6 Aug to 12 Oct)

TAS, NT and ACT are left out because each has fewer than 20 mats. Capitals and regional are classified by postcode ranges (approximate).

Standouts

- **Regional is the market.** Two thirds of mats ship outside the capitals. Sydney (3.2 per 100k) and Melbourne (4.5) barely buy, and Perth is the best capital (9.1).
- **Queensland is Plus country.** Only 20% Original. Orange is 32% (45% in Brisbane) and Camo is 18%, the highest of any big state.
- **Grey Plus wins NSW (27%) and regional WA (32%).** Orange is weakest in WA (23%).
- **Original holds in SA (32%), WA (30%) and Sydney (33%).** These markets need the Original vs Plus comparison most.
- **Pink is regional** (10% regional vs 7% capitals), strongest in regional NSW and QLD. It's weak in SA (5%).
- **Meta:** weight spend to regional postcodes in QLD, WA, SA and NT. Lead QLD with Orange and Camo, NSW and WA with Grey, and test gift-framed Pink in regional NSW and QLD.
